Inspiring Courage to Confront Social Injustice

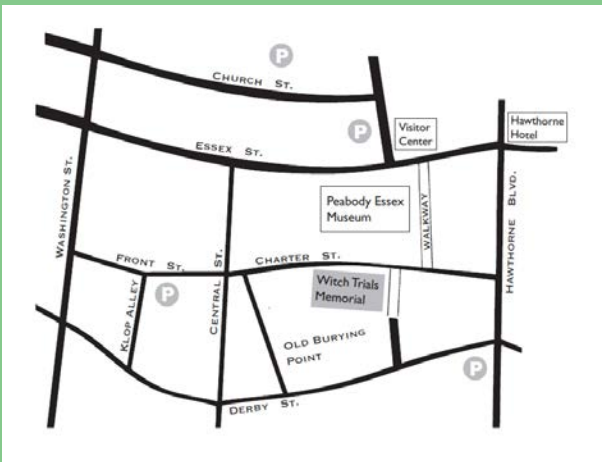

Voices Against Injustice promotes awareness of human rights and social justice as a way of keeping relevant the lessons of the Salem Witch Trials. We work to foster tolerance, empathy and reconciliation in three ways:

REMEMBER the victims and the injustices of the Witch Trials by maintaining the Memorial, encouraging visitors to enter thoughtful contemplation.

HONOR today's champions of social justice with the **Salem Award for Human Rights and Social Justice** so that their work inspires others.

ACT by broadening understanding of current human rights issues and by raising our voices against discrimination and all forms of oppression.
